# FORMULA DESCRIPTION

## **In general**

All recipes only contain mild preservatives. All products are skin-pH-neutral. All recipes and labels are according to the REGULATION (EC) No 1223/2009 of 30 November 2009 on cosmetic products and GMP ISO 22716:2007 regulations.

## **Specific:**

The **body washes** are rich foaming products with a strong and pleasant smell and leave the skin feeling soft. No colourants.

The **body milks** are non greasy light formulations that are easily rubbed onto the skin. Although the skin does not feel greasy afterwards it does feel soft and smooth. No colourants.

The **bath pearls** contain skin-softening and hydrating components. The caring oils are released when the pearls dissolve. The added Glycerin helps the skin stay soft and moisturised.

The **body sprays** are skin revitalising. Help the skin feel hydrated, refreshed and the skin is pleasantly fragranced.
